We are not alone - 2018 Preharvest Sprouting

England

Tobias Barber @ekte_Toby Following
I guess this is what you'd call pre-harvest sprouting #Harvest18

2:21 PM - 25 Aug 2018

Jim Thompson @jimt_farmer Follow

Rhett Kaufman @rhett_kaufman Follow
Should have brought the combines to the field 3 months ago. Just need 1 more day #Harvest18

Fermes Chauvin Farms Ltd. @MoeChauvin Follow
#wheat harvest18 started here at fermeschauvinfarms.com in Stoney Point. Decent yields for no rain ... #OntAg #AgMoreThanEver #goodineverygrain

4:51 PM - 5 Jul 2018

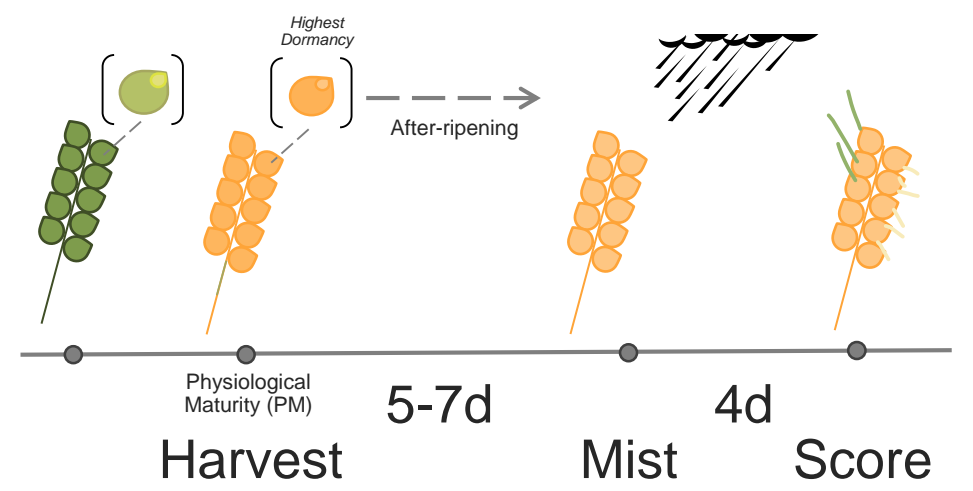

Methods to Screen for PHS

(1) Falling Number

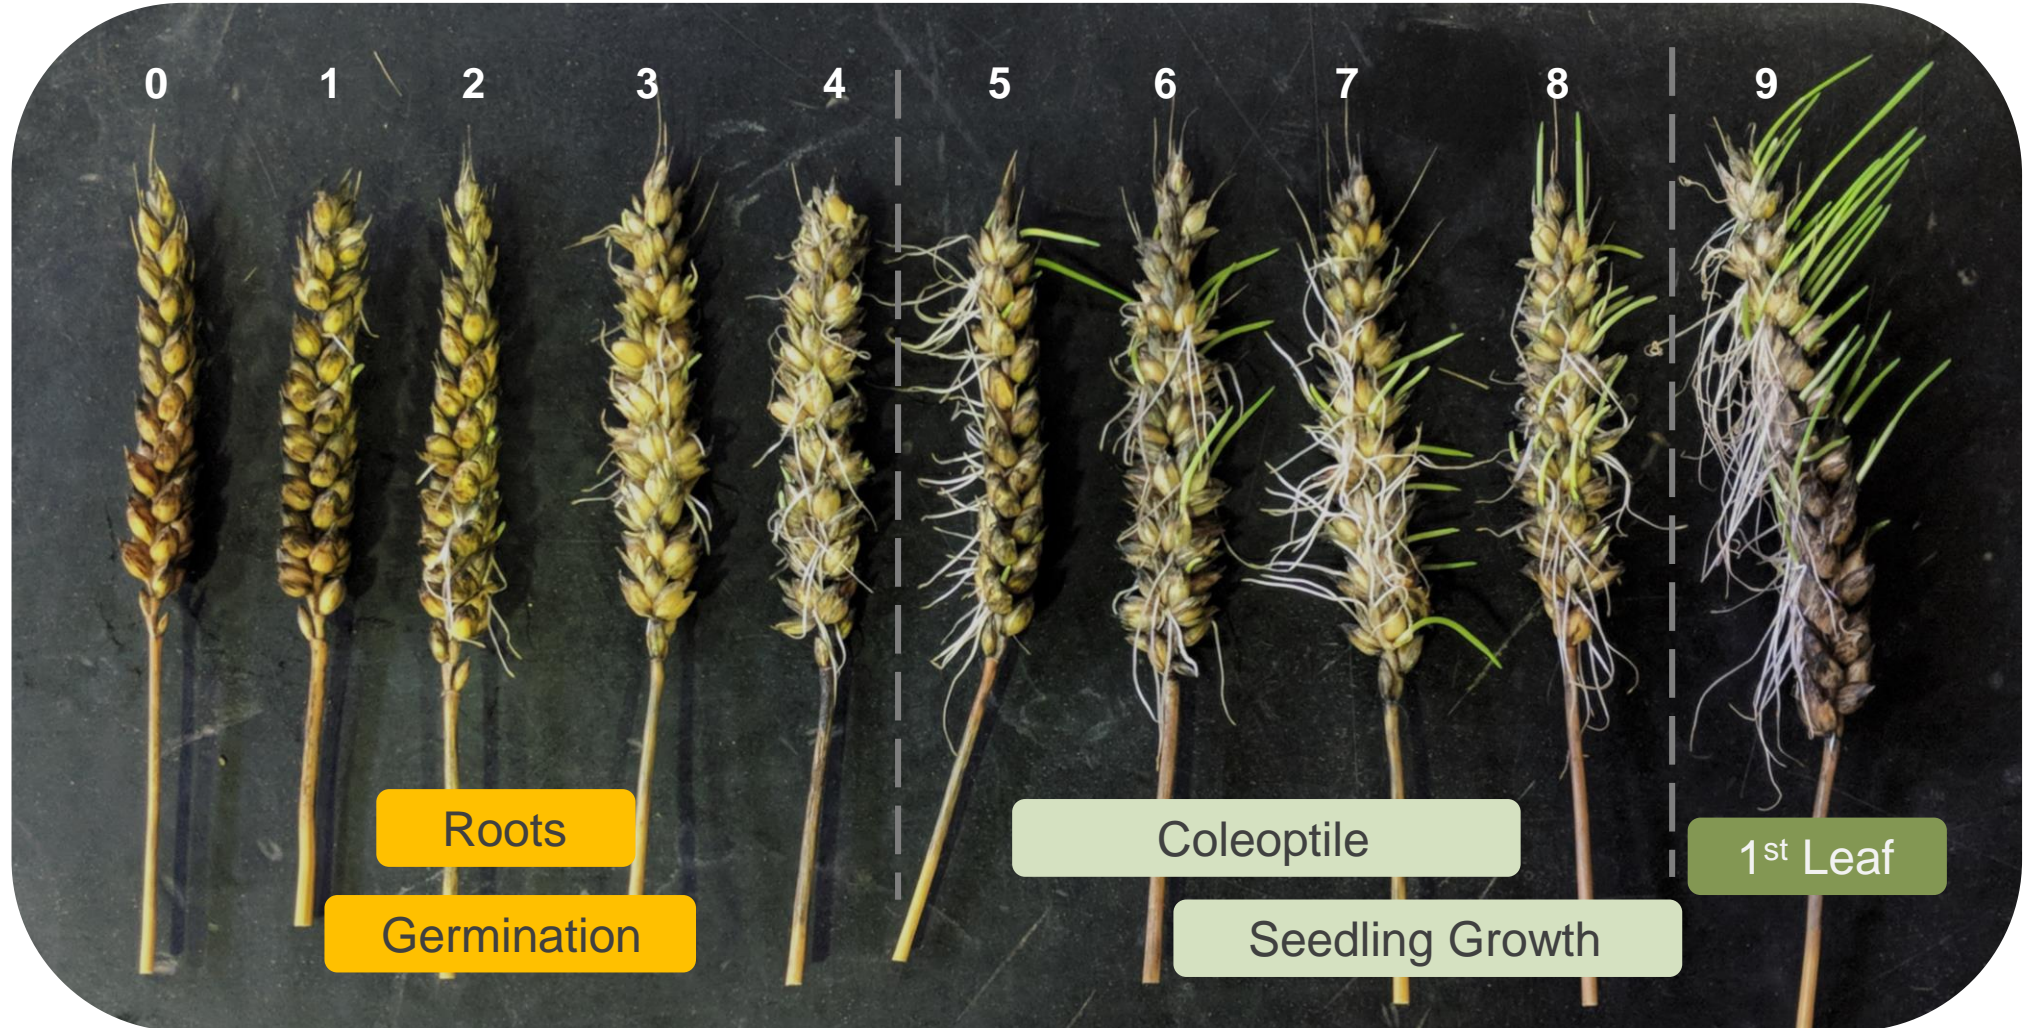

LOW FN "watery" More starch damage
HIGH FN "gravy" Little starch damage

(2) Spike Wetting Test

Genomic Prediction: Why

What is the best model Mark Sorrells (et al) can use to predict sprouting susceptibility and tolerance if he only had the resources to genotype a line(s) and no spike wetting test

Early generations prediction?:
sprouting response to a 50%-75% accuracy

Breeding for PHS

MAS known PHS genes, (MKK3, MFT, etc)
